

- ◆ **Storage Consolidation that can simultaneously meet your diverse needs – SAN and NAS, primary and secondary storage.**
An unified storage platform supporting simultaneous block and file services for business and technical applications.
- ◆ **3Gen RAID with the most powerful RAID Engine on earth!**
Dual Xeon E5-2603 standard with other optional Xeon CPU available
- ◆ **Upgradeable to 8Gb/16Gb FC ports and 10Gb Ethernet ports**
Standard with 2 independent Gb Ethernet ports
- ◆ **Performance that meet and exceed your applications demand**
Outstanding file-based and transaction based performance with high bandwidth, 64-bit architecture, and the latest I/O technologies.
- ◆ **Maximum scalability to meet your diverse business needs – up to 750 HDDs**
“Buy what you need today and grow when you need it in the future”
- ◆ **High Performance 6/12Gb SAS Chassis**
Maximum hardware bandwidth to avoid data congestion and achieves best in class performance.
- ◆ **Speedy Natural Disaster Recovery via Global Clustering and Remote Volume Mirroring**
Ability to mirroring critical data to local and remote location via FC and/or iSCSI
- ◆ **Value-added applications available for cloud computing, productivity and data availability**
Dynamic thin provisioning, block level data de-duplication, real time Volume based encryption, WORM (Write Once Read Many), performance enhancing SSD and N+1 clustering to protect sensitive and mission critical data

High Value with unbeatable ROI

Today’s business environment demands innovation and increasing flawless execution in all environments including virtualized computing. With IntelliNAS V9000Pro series Unified Storage storage, you have an ultimate all-in-one storage solution for handling block based storage, file serving, server consolidation, backup and restoration strategies, replication solutions, regulatory compliance data retention and the integration of NAS and SAN investments. Packed with enterprise features and protected with a 3 year warranty, IntelliNAS V9000Pro series delivers unsurpassed value with a price that is lower than all other storage solutions on the market.

High Availability and Advanced Data Protection

All systems include hot swap technology and block level volume cloning software for maximum data protection. By connecting with another IntelliNAS remotely via Gb Ethernet ports, backup and restore can be accomplished via our automated file based asynchronous remote mirroring and synchronous / asynchronous block based volume mirroring. V9000Pro incorporates SnapBack technology to reduce backup time to minutes; SnapQuick to enable recovery of point-in-time data in minutes. Furthermore, a full suite of optional enterprise software such as Global clustering (active-active and active-passive), WORM, real time volume encryption, dynamic thin provisioning and block based data de-duplication with projected 70% capacity saving.

High Usability

IntelliNAS V9000Pro series can be installed in just 15 minutes with plug-and-play network connectivity and intuitive installation tools. The web based management software allows users to manage their storage systems via web browsers from any place in the world. Thin provisioning helps you to eliminate stranded storage. Preserving investment in staff expertise and capital equipment is easy because IntelliNAS V9000Pro series are based on industrial proven 3GenNAS Operating System and management tools. While 3Gen’s products are always on the cutting-edge, our customers can rest assured that easy-to-use stays on top of 3Gen’s design philosophy. 3Gen is committed to bringing advanced Information Life Cycle Management features to all enterprises

Storage Sharing and Access Control

With versatile IntelliNAS V9000Pro series systems, you can use high performance SAS or large capacity SATA disk drives for optimal performance – cost ratio. On the same system, you can seamlessly consolidate block and file storage. IntelliNAS V9000Pro series makes this possible by providing native support of the iSCSI, FC, NFS and CIFS storage protocols.

Data specifications

**IntelliNAS V9040Pro, V9080Pro, V9120Pro
(2U, 3U and 4U)**

Configuration

Operating System	3GenOS 64bit
CPU(s)	Dual Xeon E5-2603 standard (Other CPUs models available upon request)
Memory	16GB ECC DDR3 / DDR4 Memory (up to 2TB)
Hard Drive Interface	Serial ATA III or SAS HDDs – 750 HDDs with optional JBOD
Maximum storage capacity	6000TB, 8TB per disk

Connectivity

10/100/1000 Ethernet Ports	2 Auto-sensing (Up to 24)
8Gb/16Gb FC & 10Gb Ethernet	Optional (Up to 24 with V9080Pro and V9120Pro)
NIC Teaming with LACP	Yes
Load Balancing	Yes
Ethernet Failover	Yes
Interoperability	Windows, Unix, Linux, Novell and MAC
Interface Support	iSCSI, FC, CIFS, NFS, HTTP, FTP, SMB, AD, LDAP, NIS

Data Protection and Reliability

Hot swap HDD	True Hot Swap
RAID	RAID 0, 1, 5, 6, 10, 50 and 60
Online Volume Expansion	Yes
SnapBack / SnapQuick	Yes
Volume Cloning	Yes
Redundant Cooling Fans	3 hot swappable
Redundant Power Supply	2 hot swappable
UPS and Environmental Support	Yes
Client Backup Software	Yes
vServer (Hyper-Convergence)	Optional
Block based Data De-duplication	Optional
Dyanmic Thin Provisioning	Optional
Data Mirroring	Optional
Redundant OS	Optional
Performance SSD Caching	Optional
Clustering (Act.-Act. / Act.-Pass.)	Optional
FileLock (WORM NAS)	Optional
Real Time Volume Encryption	Optional

Management

Remote Management	Yes
Active Directory Services	Yes
Network Discovery Tool	Yes
